REPORT OF THE COUNCIL FOR 1891.

AS READ AND ADOPTED AT THE ANNUAL MEETING, MONDAY,
FEBRUARY 15TH, 1892.

THE Council of the Zoological and Acclimatisation Society has the honor to present its Twenty-Eight Annual Report to the Subscribers.

The Council has to deplore the death of one of its oldest members, the late Mr. Frederick G. Moule, who had been connected with the Society for upwards of twenty years, he was always a regular attendant at the Council Meetings, and took a deep interest in its welfare.

The Society has continued to progress during the past year, and the Zoological Gardens have been much improved in appearance. The principal works have been the erection of a substantial and handsome brick Elephant House, with large exercising yard attached. Two commodious cages for Lions have been built,

and the large Aviary formerly used as a Parrot house has been reconstructed and converted into a beautiful natural Aviary for small song birds and finches. The back and sides of this building represent a tropical forest scene, in the centre of the Aviary is a fountain, and the whole is planted with ferns and small ornamental shrubs, the effect being exceedingly pretty, it is very much admired as the finest exhibit of its kind in the gardens; the numerous small birds fly about almost in a state of freedom, the length of the building being over sixty feet, the breadth twenty five and the height eighteen feet. All the buildings in the gardens have been artistically painted by Messrs Paterson Brothers the art decorators, and the effect produced by a proper blending of colors is very pleasing.

A number of valuable specimens have been added to the Zoological Collection from Europe, India and Africa, but the most prized and costly, a fine young Rhinoceros purchased for the Society in Calcutta has died. The animal was shipped from India in the S. S. Bancoora, which vessel was unfortunately stranded almost on the completion of her voyage near the Barwon Heads, and although the animal was ultimately landed, injuries had apparently been sustained which caused its death a short time after arrival at the gardens; this is very much to be regretted as these animals are most difficult to obtain; instructions have however been forwarded to the Society's Calcutta agent to endeavour to procure another specimen. Other Indian animals and birds are shortly expected to arrive.

As stated in last years Report a large Zoological Collection such as the Society now possesses requires constant replenishing, the death rate being invariably heavy among animals and birds kept in a state of captivity.

Although slightly increased during the past year, it is to be regretted that the number of members is still small. The public

apparently not taking the same interest in the Society's Gardens as is shown in England and all the large Continental cities where similar institutions exist, and where they are always very popular. It is more strange in such a fine climate as we possess, as the gardens afford a delightful place for Ladies and children to spend the day in, and there is much in them both to amuse and to instruct, and abundant shelter in case of either rain or great heat. This is much to be deplored as the gardens languish for want of funds, whereas if a larger income were available, they would speedily rank among the most beautiful Zoological attractions in the world. If the gardens at the Royal Park with its fine collection of animals and birds were near any of the great continental cities, its members would be numbered by thousands instead of a few hundreds. As it is, were it not for the Government Grant which is given to the Society in consideration of the free Sunday, the gates would necessarily have to be closed. The Society is managed with the utmost economy, but where a large Zoological Collection has to be maintained and kept up as well as the gardens, the expenditure must be great. The income has been slightly in excess of the previous year, and the number of tickets sold was 77,763. The attendance on Sundays has as usual been very large, about 300,000 people having availed themselves of the privilege of visiting the gardens free on that day.

The accounts have been duly audited by Messrs Langton, Holmes and McCrindle, and the balance sheet for the past year will be published in the yearly report of the Society's proceedings.

The distribution of Trout Fry from Sir Samuel Wilson's Estate, Ercildoune, has been fairly successful, upwards of 14,000 having been placed in different streams, namely—the Delatille, Jamieson, Howqua, and Tyers rivers, and in several creeks in the upper Yarra country. It may be mentioned that the Director frequently hears of the success that has attended the efforts of the Society in piscicul-

ture, only lately he has been informed that a fine trout has been caught in the Delatite, and one of nearly similar size in the Badger Creek, near Healesville, and a fine Salmon Trout was recently taken in the Tyers river in Gippsland, showing that the Fry placed in those streams in former years has succeeded. The thanks of the colony are due to Sir Samuel Wilson for placing the young trout at the disposal of the Society annually. The fish hatching establishment at Ercildoune is kept up at considerable expense, and the work of stocking the Victorian Rivers and Creeks has now been going on for many years, and every season adds to the number stocked.

The following is a list of the principal additions that have been made to the Zoological Collection during the past year, with those marked which are new to the collection :—

2 Carabou Reindeer (new)	1 Cape Hyrax (new)
2 Aoudads or Wild Barbary [Sheep]	1 Black Wallaroo
1 African Spring-bok (new)	2 Black-faced Mallee
2 Cape of Good Hope [Fat-tailed Sheep]	Kangaroos
1 Mandrill Baboon	1 White Asiatic Crane
1 Drill Baboon (new)	2 European Cranes (new)
1 Anubis Baboon	2 Golden Eagles (new)
5 Entellus Monkeys	1 Fulvus Vulture (new)
1 Ruffed Lemur	1 Vulture Monachus (new)
1 Cape Hunting Dog (new)	3 Secretary Vultures
5 Silver-backed Jackals	A varied collection of Pheasants and Partridges
1 Ocelot (new)	3 Giant Tortoises from the [Seychelles (new)]
1 African Lynx	
1 Suricate (new)	

The two most serious losses have been the young Rhinoceros and a young American Bison, which died on shipboard on the passage out.

A number of native animals and birds have reached the Society from time to time from up country friends, and the Council take this opportunity of thanking them for their kind interest in the gardens, and wish to point out that such gifts are always most acceptable, for if not required for the collection these specimens are valuable to exchange with other Societies. Black-faced Mallee Kangaroo Mallee Hens, and Native Turkeys or Bustards are now especially required.

The council desire to tender their warm thanks to Mr. Frederic Race Godfrey, the retiring President, and to Mr. Charles Ryan the Hon. Treasurer, for the manner in which they have discharged the duties of their respective offices. The council would also testify to the zeal, care and interest taken by the Managing and Assistant Directors, and all their Employees in the work and business of the Society, to which its successful progress is mainly attributable. And they also wish to thank Mr. W. T. Kendall, the Society's Hon. Veterinary Surgeon for his prompt attention whenever his services have been required.

In concluding this Report, the Council and the Directors desire to state that every effort will be used in the future as in the past, to render the Melbourne Zoological Gardens not only more attractive and beautiful, but to increase their value from an educational point of view, as there can be no doubt that the gardens are a most valuable help to students of natural history, and in this connection they are pleased to inform their Subscribers that Professor Spencer has kindly promised to deliver a few lecturettes on various natural history subjects, somewhat on the lines of those given at the London Zoological Gardens, and to which subscribers will be admitted free of charge. They will be commenced as soon as a suitable room can be built for the purpose.

The Chairman Mr. F. R. Godfrey moved the adoption of the Report ; this motion was seconded by Professor Spencer and carried.

Mr. Godfrey then briefly reviewed the past year which had been a most satisfactory one. It was a pleasure to him to be connected with a Society which was not only well managed, but which gave so much pleasure and so much instruction to the people of the Colony. He regretted that none of the subscribers were present outside of the members of the Council ; but at all events it was an acknowledgement that all were well pleased with the management. He attributed the success of the Society to the great interest and the exertions used by the Managing Director, Assistant Director, and all their Employes ; and he felt sure that the Society would continue to prosper and grow in public favor.

Mr. Le Souëf the Director acknowledged the remarks made by Mr. Godfrey, and said that although it was true that he and his sons and in fact all the employes took a deep interest in the Society, yet he could not have accomplished what had been done, were it not for the hearty support he had always received from every member of the Council, and for which he felt most grateful.

The meeting then proceeded to elect office-bearers for the ensuing year, namely :—A President, two Vice-Presidents, Hon. Treasurer, and three Members of Committee. Messrs. Spencer, Bruce, and Sutherland being the three members of the Council who had attended the least number of meetings during the year, had consequently in accordance with the Rules to retire, but were eligible for re-election, and offered themselves accordingly. Mr. Sutherland had only been a short time a Member, as he was elected to fill the vacancy occasioned by the death of the late lamented Mr. Moule ; and Messrs. Bruce and Spencer had both attended a number of meetings.

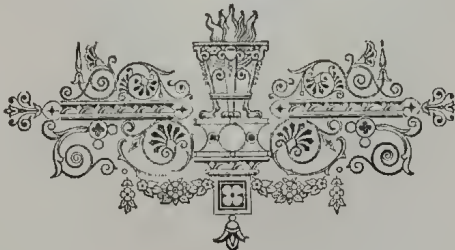

Mr. Godfrey moved that the retiring Members of Council be re-elected. This motion was seconded by Mr. Tyler and carried unanimously.

Mr. Purchas moved that Mr. Officer be appointed President ; Mr. Godfrey and Professor Spencer Vice-Presidents ; and Mr. McLachlan, Hon Treasurer. This motion was seconded by The Hon. R. Simson, and carried unanimously.

Mr. Officer returned thanks for the honor done him, and said that he would use his best efforts in the interest of the Society, in which he had always taken the greatest interest.

Mr. Tyler moved a vote of thanks to the retiring President, Mr. F. R. Godfrey, and the retiring Hon. Treasurer, Mr. Charles Ryan. This motion was seconded and carried unanimously.

In responding, Mr. Godfrey drew attention to the fact that in spite of the existing depression, the attendance was not falling off, which was a sign that the Gardens were steadily advancing in public favor. He mentioned that efforts were being made to replace the Rhinoceros and Bison, which unfortunately were lost during the year, he also noticed the satisfactory progress of pisciculture in Victoria. In conclusion he thanked the Council and Directors for the support which they had always given him during his term of office.

REGULATIONS

MADE BY THE COUNCIL OF THE

ZOOLOGICAL & ACCLIMATISATION SOCIETY

PURSUANT TO THE ZOOLOGICAL AND ACCLIMATISATION SOCIETY INCORPORATION
ACT NO. 794, 1884, SECTION 8, AND APPROVED BY THE GOVERNOR IN COUNCIL.

1. *Membership.*—A subscriber of One guinea annually, shall be a member of the Society, and shall be entitled to a member's ticket admitting himself and one lady, or two children to the garden. A subscriber of two guineas annually shall be entitled to a family ticket to admit himself and family to the garden. And a contributor of ten guineas or upwards in one sum shall be a life member of the Society, and shall have the same privileges as the holder of a family ticket. Any person who has rendered special services to the Society, may be elected an honorary member by the Council, and shall have the same privileges as the holder of a family ticket. Members of the Council of the Society, and the Directors have power to admit visitors to the colony free of charge to the Garden.

2. *Election of council.*—At the annual meeting to be held in the month of February, 1885, nine members, comprising the whole of the elected members of the council, shall be elected by ballot, and thereafter the president, vice-presidents, and treasurer shall annually retire from office, and also three other members of council (namely those who have attended the fewest meetings of the council since their appointment) shall retire annually, but shall be eligible for re-election, subject to Regulation No. 9.

3. *Vacancy in council, how supplied.*—In the case of a vacancy occurring by the death, resignation, or non-attendance of any member of the council for a period of two months, without leave of the council, the remaining members shall, in due course, appoint another member of the society to be a member of the council in the place and stead of the member who shall so die, resign or absent himself; but such new member shall be nominated at an ordinary meeting of the council prior to the meeting at which he is elected.

4. *Council to fill up vacancies.*—In case of a vacancy occurring by the death or resignation of the president, vice-president, or honorary treasurer, the council may appoint from amongst themselves, or the other members of the society, a person to fill the vacancy so occurring, and the person elected shall hold office only until the next annual meeting but shall be eligible for re-election for the subsequent year. Provided that such vacancy shall not be filled up unless seven days notice in writing shall have been sent to each member of the council, stating the vacancies which it is proposed to fill up.

5. *Eligibility of members of council.*—No person shall be eligible as a member of council unless he be a subscriber to the funds of the society of at least One guinea per annum, and any member of Council whose subscription shall be in arrear for three months after his subscription is payable shall cease to be a member of Council: Provided that this rule shall not apply to persons who may have become life-members of the society, by a payment of Ten guineas, or who may be honorary members of the society, and provided also that a month's notice in writing shall be sent to the member so in arrear before his place can be filled up.

6. *Meetings of council.*—The council shall meet at least once a month, three members to form a quorum, and transact the business of the society. And the director shall have power to call a special meeting of the council whenever occasion may require.

7. *Minutes of proceedings.*—Minutes shall be made in books kept for the purpose of all proceedings at general meetings of the members, and minutes shall also be made of the proceedings of the council at their general and special meetings, and of the names of the members attending the same, and such minutes shall be open to inspection by any member of the society at all reasonable times.

8. *Moneys to be paid to treasurer.*—All subscriptions and other moneys received on account of the society shall be paid to the treasurer, or some person authorized by him, who shall place the same in a bank, to be named by the council, to the credit of the Society; and no sum shall be paid on account of the society until the same shall have been ordered by the council, and such order be duly entered in the book of the proceedings of the council and all cheques shall be signed by the treasurer as such, and be countersigned by the president or one of the vice-presidents, and by the director.

9. *Annual meeting.*—An annual meeting of members shall be held in the month of February in each year, and the council shall report their proceedings during the past year, and shall produce their accounts duly audited for publication; and the meeting shall elect by ballot the office-bearers for the ensuing year, and fill up any vacancy which may exist in the council: Provided that no person shall hold the office of president or vice-president for two years successively.

10. *Medals.*—No medal of the society shall be awarded to any person except by the vote of at least seven members of council, present at a council meeting, and after notice of motion for awarding such medal shall have been given at the next preceding meeting of the council.

11. *Time of gardens opening and closing.*—The gardens are open from half-past nine a.m. till half-past four p.m. in winter, and six p.m. in summer, except on Sundays when the gates are not opened until half-past one p.m.

12. *Dogs not allowed in gardens.*—Visitors are not allowed to bring dogs into the gardens. A penalty of Two pounds is imposed for an offence against this regulation, in addition to which the owner of any dog found in the gardens will be held responsible for any damage done by such dog.

13. *Prohibitions.*—Visitors are especially prohibited from teasing or disturbing the animals or birds; also from interrupting the workmen by conversation or otherwise; also from leaving bottles, broken glass, or crockery, paper, or litter of any kind in the gardens; from lighting any fire therein; from posting any bills on the fences, bouses, or trees; and from playing cricket, football, or other games within the gardens. A penalty of Ten shillings is imposed for an offence against this regulation.

14. *Children, unprotected, not allowed in gardens.*—Children under twelve years of age will not be allowed within the gardens unless with a parent or other adult, and if found therein may be expelled therefrom.

15. *Prohibitions.*—Walking across the shrubberies or flower borders, pulling flowers or branches from the plants, shrubs or trees; standing upon or climbing over any of the fences, climbing trees or bird-nesting, cutting names or letters or marks of any kind, or writing on any of the seats, or trees or fences, or any building erected for the accommodation of the public are strictly prohibited. A penalty of Ten shillings is imposed for an offence against this regulation.

16. *Entrance except by gate prohibited.*—Entering the Gardens by climbing over the fences or by any gate other than the one by which the public are admitted, or without having paid the charge for admission, or entering into those parts of the grounds which are specially closed for plantation, or other purposes, is strictly prohibited. A penalty of not less than twenty shillings is imposed, for an offence against this regulation.

17. *Smoking prohibited.*—Smoking in the summer time, at such times as may seem necessary to the directors for the safety of the gardens and the property therein, is prohibited, and at such times notices to that effect will be posted at the gates. A penalty of Five shillings is imposed for an offence against this regulation.

18. *Expulsion on misbehavior.*—Any person found in a state of intoxication, or behaving in a disorderly manner, or creating or taking part in any disturbance, or committing any act of indecency, or swearing or using bad language, or committing a breach of any of the above regulations may be forthwith removed from the gardens, and any member of the society so misbehaving shall cease to be a member.

19. *Preaching or public harangues,* whereby a crowd is collected within the gardens, or on the grounds under the control of the council of the society, are strictly forbidden. A penalty of Five pounds is imposed for an offence against this regulation.

20. No person shall be permitted, without the permission of the council, to carry on any traffic whatsoever, or distribute hand bills in the gardens. A penalty of Twenty shillings is imposed for an offence against this regulation.

21. No musical band or other instrumental or vocal performers shall be permitted to perform in the gardens, unless with the express permission of the directors. A penalty or Two pounds is imposed for an offence against this regulation.

22. *Charges for admission.*—Admission to the gardens is free on Sundays. On Mondays non-subscribers will be admitted on payment of One shilling for each adult and Sixpence for each child under twelve years of age, but the Society shall have power to charge One Shilling for each adult and Sixpence for each child under twelve years of age on any day (Sunday excepted) that an Instrumental Concert may be given in the Gardens. On all other days of the week non-subscribers will be admitted on payment of Sixpence for each adult and Threepence for each child under twelve years of age. State and other schools will be admitted to the gardens on application to the director at half the usual entrance fees. Members of the society admitted free.

23. *Repeal of pre-existing rules.*—All rules and regulations of the society in force prior to its incorporation and up to the date of these regulations coming into effect are hereby repealed.
